Wisconsin's Farmers Market Coffee

What is Der Hoffskeller Coffee?

CEDARBURG, WISCONSIN - Many have seen the advertisements, but few know what Der Hoffskeller coffee is. It's actually very simple:

1. We only do one roast: A classic medium dark German Norwegian style blend.
2. German Norwegian style refers to the roast levels. Blend combines dark German roast level with lighter Norwegian roast level beans.
3. All Colombian Supremo coffee beans.
4. Dutch Mason roasting technique (roasted in dutch ovens on stovetop and sealed in mason jars).
5. Herr Hoffskeller (pictured above right) is our mythical and legendary folk hero founder. Read more about him and his many adventures on our website blog.

That's all there is to it. Great coffee made the original way.

The Real Story of Der Hoffskeller

We like to have fun with the history of Der Hoffskeller, but the real story is probably even more interesting. Our family bought the farm at 1040 Sherman Road in 1944. It has been used for crops, cows, pigs, horses, chickens, and now coffee. We began renovating the barn in 2024, and now use the basement as the headquarters for our coffee business and as a farm stand. The name comes from a combination of the Old Norse word "Hoff" for farm and the German word "Keller" for cellar...

Der Hoffskeller!

Herr Hoffskeller Unveils the "Big Hoff"

CEDARBURG, WISCONSIN - In a move that surprised authorities and violated several known laws of physics, Herr Hoffskeller has unveiled the half-gallon "Big Hoff" jar of coffee beans. Available online and at the farmers market now.
